

DETAILS

Project

Bishop Noa Home,
Escanaba, MI

Area

Total area = 1,800 sq.ft.

NEW BUILDING - 2015

This much needed new maintenance garage is large enough to hold all the equipment needed to maintain the grounds of the Bishop Noa Home facility. The garage features a service door, windows for natural light and 4 bays with overhead doors.

The project included complete building design services, including structural, architectural, civil, mechanical and electrical.
