

## PASSENGER BOARDING BRIDGE / RAMP - 2014

### DETAILS

#### **Project**

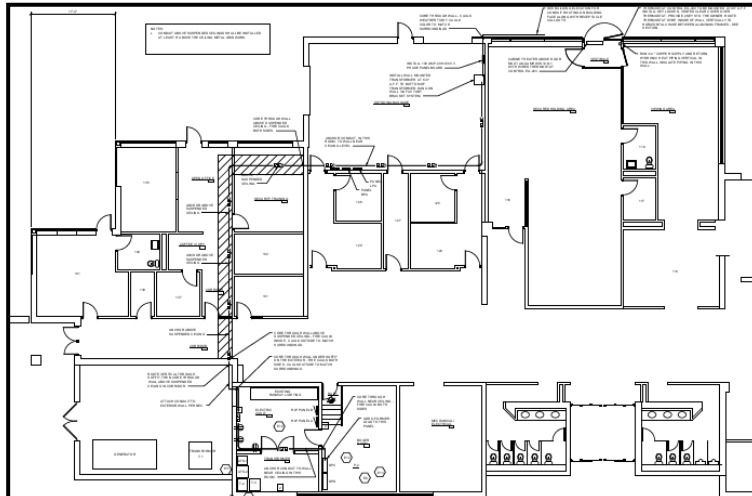

Delta County Airport  
Escanaba, Michigan

DDGi designed modifications to the terminal building and the electrical service for the Regional Boarding Ramp (RBR). The RBR provides a sheltered walkway and ramp from the terminal building to the aircraft.

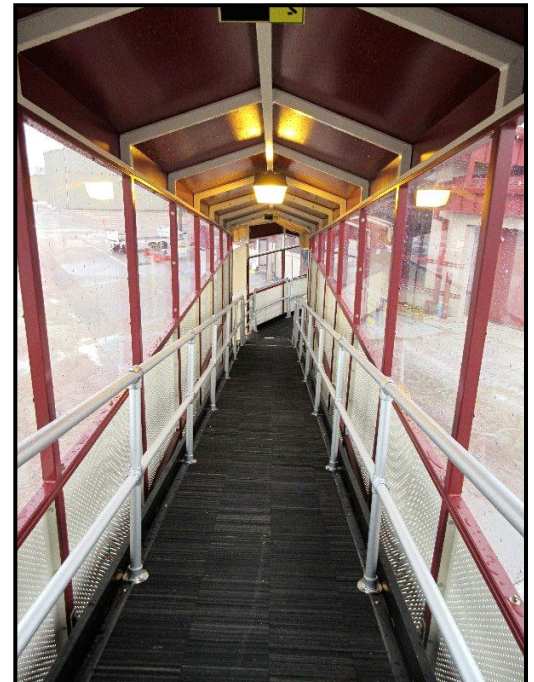

DDGi worked closely with the owner and the owner's airport engineering consultant to complete this project.

New Boarding Bridge / Ramp

Floor plan for terminal and renovation plan.
