

## DETAILS

### **Project**

Miller Family Farm  
Carney, Michigan

### **Area**

Pole Structure 4,608 sq.ft.  
(48ft x 96ft)

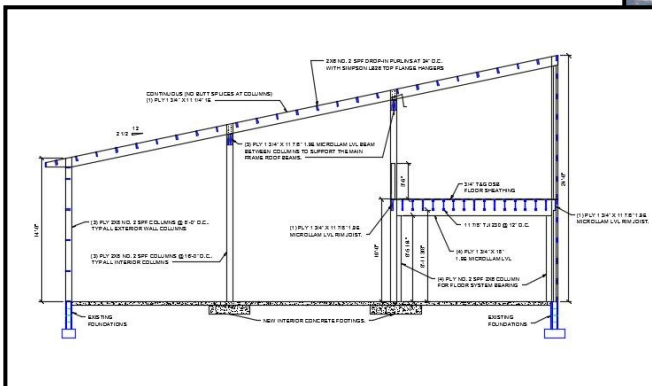

## NEW BUILDING - 2013

This wood framed building was designed for a new Aquaponics farm. The owner completed a majority of the construction. The complete project "in pictures" can be viewed on their Facebook page - "Miller Family Farm".

The project included complete building design service including architectural, civil, structural, mechanical, electrical and plumbing.
