

PROJECT EXPERIENCE

- Head Start Facilities
- Schools
- Colleges
- Churches
- Assisted Living
- Housing
- Park and Recreation Facilities
- Office Buildings
- DPW Facilities
- Fire Stations
- Medical
- Municipal
- Industrial
- Manufacturing
- Streetscape Design
- Residential

PROJECT RESPONSIBILITIES

- Project Management
- Contract Administration
- Project Conceptual Design
- Plan Development
- Project Code Review
- Construction Estimates
- Construction drawings
- Construction specifications
- Coordinate project disciplines
- Qualify contractor bids
- Contracts
- Review shop drawings
- Perform field inspections
- Prepare Marketing Material

Before joining his corporate partner and forming *Dynamic Design Group, Inc.*, Jason has spent the past 19 years as a Project Designer/Manager for three different A/E firms. As a Project Manager, Jason manages projects from initial client proposal to final project close-out. He has successfully completed Architectural and Engineering projects throughout Michigan, Wisconsin, and Indiana. His dedication to the discipline has afforded him the opportunity to work on a wide variety of projects including; schools, medical office buildings, multi-tenant housing, office buildings, churches, municipal projects, fire stations and college master planning. Jason has been responsible for nearly every aspect of a commercial building project from the initial client contact through construction documents, to the final project walk-through. His experience preparing estimates, construction and contract documents, and inspecting on-site construction quality, ensures that every project he manages is completed accurately, on time, within budget, and to the highest standard.

Education

Bachelor of Science in Architecture and Design
Lawrence Technological University
Southfield, MI
